Hyaluronic Acid (HA)*-----	1,600 mg/lb		100 mg/oz

*Not recognized as an essential equine nutrient

INGREDIENT STATEMENT: Water, Sorbitol, Dextrose, Glycine, L-Glutamine, L-Proline, Condensed Extracted Glutamic Acid Fermentation Products, Pyridoxine Hydrochloride, Manganese Sulfate, Ascorbic Acid, Copper Sulfate, Sulfur, L-Arginine, L-Threonine, L-Tyrosine, Animal Protein Products (source of Glucuronic Acid and Hyaluronic Acid), Gelatin, L-Lysine, DL-Methionine, L-Serine, L-Valine, L-Phenylalanine, L-Histidine, L-Isoleucine, Aspartic Acid, L-Alanine, Xanthan Gum (Homogenizing Agent), Corn Syrup, Sodium Benzoate (a preservative), Yucca Schidigera Extract (a natural flavoring agent), Natural and artificial flavors.

FEEDING DIRECTIONS FOR ADULT HORSES: For an average 1,100 lb (500 kg) horse, feed 1 oz (30 ml) daily with the horse's regular feed or give orally.

LOADING PERIOD: Feed double amounts for the first 5 consecutive days. Feed others according to body weight, less for smaller horses and ponies, more for larger breeds.

As A Pre-Competition Product: Feed 1 oz (30 ml) for 3 consecutive days prior to event.

"Do Not Feed To Cattle Or Other Ruminants"

Keep out of reach of children

Store in a cool dry place • Shake well before using
