INGREDIENTS

Alfalfa meal dehydrated, wheat middlings, cane molasses, l-lysine, dl-methionine, pyridoxine hydrochloride, biotin, calcium carbonate, salt, bentonite, and propionic and acetic acids (preservatives).

For use in horses only.

Recommended to support healthy hooves.

H.B. 15™ contains:

- D-Biotin, the natural, most usable form
- The amino acids Methionine and Lysine to increase protein utilization
- Vitamin B₆ to aid in amino acid metabolism

FOR ORAL USE IN HORSES

Keep Out of Reach of Children

DIRECTIONS

Enclosed scoop holds one ounce.

Feed H.B. 15™ at the following daily rates:

ADULT HORSES: 1 ounce per day

FOALS, WEANLINGS, PONIES: 1/2 ounce per day

PREGNANT & NURSING MARES: 2 ounces per day

Sprinkle the proper amount over feed or mix with the grain ration. Close container after each use. Store in cool, dry place.

Proteins are one of the most important nutrients, vital to life and health. H.B. 15 has been specially formulated to contain biotin and the amino acids lysine and methionine. Amino acids are the “building blocks” of the body and enable a horse to make the best possible use of the vegetable proteins present in hay and grains. Lysine and methionine are recognized as especially vital for horses for this reason. H.B. 15 also contains Vitamin B₆, which aids in the metabolism of these amino acids.
