NUTRITION

# Perform 'n Win™

Product No. 39716  
4 LBS. NET WT. (1.86 Kg)

Electrolyte Supplement For All Horses

The only university tested performance electrolyte on the market today	Years of substantial scientific study with results for improved electrolyte response to help assure the validity of product claim
Provides optimal levels of electrolyte for maximum performance	Levels used were based from the scientific study for a complete balance for the horse
Easy to use and easy to dissolve	Clear-cut instructions for effortless use and hassle-free as it quickly mixes into solution
Quick absorption formula	1 ounce per liter or 4.5 ounces per gallon provides the horse with the correct ozmolarity for rapid absorption in the small intestine
Delays time-to-fatigue by nearly 25%	Allows for longer, stronger and healthier performance from your horse
Uniquely designed powder, rather than a paste	The powder allows for a more rapid absorption rate, as pastes tend to absorb slower due to fluid imbalances and dehydration
Can be used in horse's drinking water daily	Diluted solution adequately replenishes small amounts of electrolytes lost in normal workouts
Will mask strange tastes in water when traveling to new locations	No more transporting jugs and gallons of water to events or shows
Effectively aides in recovery for horses exposed to stress from prolonged transportation	Decreases time to replenish horses from what typically takes 2 -7 days for full recovery

#### GUARANTEED ANALYSIS

Sodium	1120 mg	4.06%
Potassium	910 mg	3.27%
Chloride	2600 mg	9.25%

INGREDIENTS: Salt, Potassium Chloride, Magnesium Sulfate, Dextrose, Sucrose, Calcium Citrate, Fumaric Acid, Citric Acid Anhydrous, Silicon Dioxide, Natural and Artificial Flavor.

**FEEDING DIRECTIONS:** The Perform 'n Win™ solution is 4.5 ounces per gallon of water. Provide as the only water source as you cool the horse down after work. The horse should receive one ounce of Perform 'n Win™ or 1 quart of Perform 'n Win™ solution for each 20 minutes of sweating work.

For proper use of Perform 'n Win™ see Technical Bulletin: Administering Electrolytes. It includes use for endurance, racing, reining, cutting, draft horses, eventing and while transporting horses.

#### CAUTION:

- Do not feed to sick horses unless advised by your veterinarian
- If the Perform 'n Win™ powder is fed, water must be consumed at a minimum rate of 1 quart per ounce of Perform 'n Win™ consumed
