**NET CONTENTS: 16 fl oz (473 ml)**

## SHAKE WELL BEFORE USING

**INDICATIONS:** As an aid in treating horses and ponies for thrush caused by organisms susceptible to copper naphthenate. Thrush is a disease of horses' hoofs characterized by a thick, black, foul-smelling discharge.

**DIRECTIONS:** Clean the hoof thoroughly by removing debris and necrotic material prior to application of Thrush-XX™ Thrush Treatment Aid. A narrow paint brush (about 1" in diameter) may be used to ensure thorough coverage. Apply Thrush-XX™ Thrush Treatment Aid daily.

### USE THRUSH-XX™ THRUSH TREATMENT AID AS FOLLOWS:

1. Remove cap.
2. With sharp instrument, punch a small hole in metal seal.
3. Replace with applicator cap; screw it down tightly.
4. Loosen nozzle a small amount.
5. Invert bottle and squeeze gently, using nozzle to regulate the flow of fluid.

**NOTE:** Thrush-XX™ Thrush Treatment Aid is easily removed from hands, clothing and surfaces with a light grade fuel oil or any type of lighter fluid.

**PRECAUTIONS:** For animal use only. Do not contaminate feed. Avoid contact around eyes. For use on horses and ponies only. Do not allow excess product to run off and contact hair. Contact may result in hair loss.

**WARNING:** Do not use in horses intended for human consumption.

**HUMAN WARNINGS:** Use in a well ventilated area. Avoid contact with eyes and skin by using protective eyewear and gloves. Avoid ingestion and inhalation by using a mask. This product is harmful if swallowed or inhaled and can cause nausea, respiratory distress, or gastrointestinal upset. If ingested, do not induce vomiting. Seek medical attention or call a poison control center (1-800-222-1222) if exposed. For a copy of the MSDS call Chemtrec at 1-800-424-9300.

**HARMFUL IF SWALLOWED: DO NOT USE, POUR, SPILL, OR STORE NEAR HEAT OR OPEN FLAME.**

Store at room temperature 15-30° C (59-86° F). Avoid prolonged exposure of Thrush-XX™ Thrush Treatment Aid to temperatures above 37.7° C (100° F).
