

• **UP TO A 48 DAY SUPPLY** •

BugLyte insect deterrent is natural, non-toxic and does not contain irritating or dangerous chemicals. BugLyte is a gentle alternative to the harshness and sensitivity problems of many of the "spray-ons". BugLyte contains both Garlic and Thiamine, known for centuries as a powerful way to keep pests like flies and mosquitoes away. Yea-Sacc® 1026 in BugLyte supports digestion, stabilizes cecal and colon pH and promotes gastrointestinal health, stability and integrity. De-Odorase® adds to the strategy of insect deterrent by reducing manure odor and pest attraction.

**DIRECTIONS FOR USE:**

Feed 1 ounce per 1000lbs body weight for 21 days, then feed 1/2 ounce per 1000lbs body weight daily (large end of enclosed scoop measures 1/2 ounce approx). Natural pest deterrents may take up to 2 weeks to reach full effectiveness. Be patient, its worth it!

# 3 in 1 BugLyte

**Keeps pests away - naturally!**
