**Farrier's Formula® Double Strength does not contain added sugar or molasses. The daily intake of starches, carbohydrates (WSC and NFC), and sugars from Farrier's Formula® Double Strength is very low, and is insignificant relative to the starch, sugar and carbohydrate intake in the total diet.*

***Farrier's Formula® Double Strength does not contain added potassium; however potassium is contained in minor concentrations with some of the ingredients such as alfalfa. Considering the small amount of product, the total level of potassium intake from Farrier's Formula® Double Strength relative to the intake in the total diet is not significant.*

Available in 11 lb nitrogen flushed vacuum bags and 11 lb nitrogen flushed buckets. The 11 lb package delivers a 60 day supply for a 1,000 lb. horse at the Adult Replenishment Feeding Level.
